The Board expects its licensees to address their health concerns and ensure patient safety. Options include seeking independent medical care, self-limiting the licensee's practice, and/or anonymously self-referring to the Professional Recovery Network (PRN). The PRN (http://www.txprn.com/) is supported in part by your license fees and is a peer assistance program dedicated to helping health care professionals enter a safe, healthy recovery in a confidential manner. The failure to adequately address a health condition, where the licensee is unable to practice with reasonable skill and safety to patients, can result in the Board taking action against the license to practice.
