Important: The Board recognizes that licensees encounter health conditions, including those involving mental health and substance use disorders, just as their patients and other health care providers do. The Board expects its licensees to address their health concerns and ensure patient safety. Options include seeking independent medical care, self-limiting the licensee's practice, and/or anonymously self-referring to the Professional Recovery Network (PRN). The PRN (http://www.txprn.com/) is supported in part by your license fees and is a peer assistance program dedicated to helping health care professionals enter a safe, healthy recovery in a confidential manner. The failure to adequately address a health condition, where the licensee is unable to practice with reasonable skill and safety to patients, can result in the Board taking action against the license to practice.
